RISER

MATTHEWS EHS DAMPENING SYSTEM

META DX

- META riser is constructed of the best Graphene carbon material by WIAWIS
- Improved shock resistance to minimizes unnecessary movement, resulting in improved arrow grouping
- In addition, Special Steel has been installed to assist in the reduction of vibration and torsion caused when force is transferred from the limbs
- Matthews EHS dampening system has been introduced to improve shot feeling, accuracy, and ultimately arrow grouping Designed to reduce post-shot shock and vibration more effectively
- Standard ILF limb fitting
- Available in 25"
- Weigh 1340g

S\$1500

ATF DX

- CNC Machined from high-quality aluminum
- Anti-torsional 45-degree cross design minimizes bow torque and reduces unnecessary movement when shooting
- Improved shock resistance caused by shooting and minimizes unnecessary movement, resulting in improved arrow grouping
- Mathews EHS dampening system has been introduced to improve shot feeling, accuracy, and ultimately, arrow grouping
- Improved grip has been developed to provide a positive sensory feeling, i ncreasing stability
- Standard ILF limb fitting
- Available in 25", 27"
- Weigh 1360g

S\$1200

S\$1300 Special Colors

BLACK REMINGTON RED COST BLUE

KAKHII METAL SAND BEIGE WHITE

BLACK RED BLACK GOLD GRAPHITE BLACK CHAMPION GOLD METALLIC SILVER BRILLIANT SILVER TURKEY GREEN

HEAT BLUE SONIC RED NEO PINK DYNAMIC YELLOW INDIGO BLUE BURGUNDY RED WHITE

RISER

S\$1200

TFT - G

- Incorporates state of the art Nano Graphene which has superior strength and a wide surface area
- Graphene is known to reduce vibration and absorb post shot shock
- Increased rigidity through the sight window increases riser performance
- H-Beam shaped frame inside the carbon body helps to eliminate unwanted torque
- Standard ILF limb fitting
- Available in 25", 27"
- Weigh 1320g

S\$1160

S\$1180 Special Colors

INNO CXT

- Carbon Graphite / Carbon
- Convenient center-shot adjustment system for easy limb alignment tuning without unstringing the bow
- Adjustable weight control system to customize the weight to achieve your desired comfort
- Standard ILF limb fitting
- Available in 23", 25", 27"
- Weigh 1200g

S\$1000

S\$1100 Special Colors

ATF - X

- Reinforced version of the ATF riser with much improved balance
- Anti-torsional 45-degree cross design minimizes bow torque and reduces unnecessary movement when shooting
- Aluminum / CNC machined
- Standard ILF limb fitting
- Available in 25", 27"
- Weigh 1280g

LIMBS

MXT XP Foam

\$1280

- Most stable limb design since the launch of the MXT limb series
- When drawing the limb reduces stack and remains smooth throughout
- Less bow torque allows accurate and stable shooting with improved overall efficiency
- Special paint used to enhance heat resistance to enable consistence performance during changing weather conditions
- Graphene foam core/ High Modulus Carbon face and back
- ILF Compatible

MXT 10 GF

\$1280

- Definite shock absorption and vibration reduction effect compared with MXT limbs
- Active dampening effect from the limbs reduces the need for separate dampeners
- Less bow torque allows accurate and stable shooting with improved overall efficiency
- Nano carbon applied graphene further increase stiffness, durability and vibration absorption
- Graphene foam core/ High Modulus Carbon face and back
- ILF Compatible

NS G

\$1180

- Constructed of advanced Nano Graphene
- Optimal bending distribution for stability and speed all in one limb
- Super smooth and forgiving shot with incredible stability
- Graphene foam core with high modulus carbon
- ILF Compatible

RISER

FORMULA SERIES

XD RISER

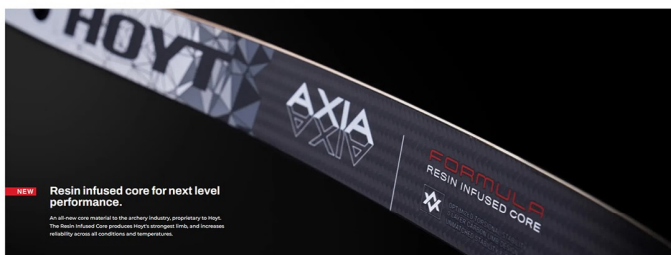

- Longest sight window in a Hoyt Formula series riser allows for a more open and unobstructed sight picture, when you bow is set-up in an indoor configuration
- Lower shifted grip position improves the consistency of the archers hand placement in both the pivot point and pressure point
- 360 Dampers are located in both the top and bottom pockets of the limbs. Which is the optimized location to dampen vibration
- Newly re-designed brass inserts reduce high friction contact points within the Pro Series dovetail block eliminating any unwanted noise, clicking, or vibration during the draw cycle
- String Tension Technology System gives archers a highly customized feel without changing their tune, poundage or limbs`
- Weigh 1251g

S\$1250

AXIA

- Features a narrower body and limb tip design for the lightest, fastest limbs in Hoyt history
- Unparalleled Shooter Experience with Enhance Limb Feel, Performance, and Reduced Limb Vibration after the shot
- All New Proprietary Resin Infused Limb Core is the strongest Hoyt limb yet
- Optimized Torsional Rigidity
- 8-layer carbon limb design increases strength and maintains the preferred flex profile
- The best limb Hoyt has ever designed and produced.

LIMBS

Engage Wood \$120

- Laminated wood core for speed, smoothness and lightweight
- Cost-effective limbs perfect for beginners
- ILF compatible

Avantage Fiber \$150

- Fiberglass with Foam core for smooth drawing
- Affordable limbs perfect for beginners
- Made In KOREA
- ILF compatible

Honoric Foam \$160

- Carbon with Foam core for improved lateral stiffness and stability
- Cost-effective limbs perfect for beginners
- Made In KOREA
- ILF compatible

Vaultage Foam \$350

- High strength cross carbon nano carbon for smooth, light weight and high speed
- Advance design of limb tips make the initial speed faster
- ILF Compatible

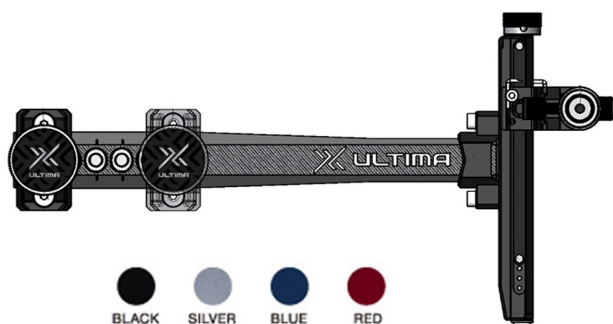

SIGHT

SHIBUYA RC PRO \$600

- Top of the line recurve sight with patent pending Polygonal Carbon Extension targeting vibration not only through material, but also shape. Available in spine Type:A and Type:B
- Redesigned sight pin locker with a toolless and effortless thumb screw
- Also available in double mount version with minimized elevation bar drastically reducing redundant weight and vibration

Type	Single Mount + 520 Elevation		Double Mount + 320 Elevation		Double Mount + 250 Elevation	
Extension Bar	9" Polygonal Carbon Extension Type: A or B					
Extension Bar Type	Type: A	Type: B	Type: A	Type: B	Type: A	Type: B
Mass Weight	233g	221 g	221 g	208g	212g	200g

AXCEL Achieve XP \$630

- Ultra micro adjustment
- Ultra High Modulus carbon bar absorbs more vibration and twice as strong
- Wedge Lock mounting system
- Variable Tension System provides adjustable elevation travel tension
- Elevation and windage locks ensures your sight doesn't shift
- Removable quick change block for easy aperture changes

SHIBUYA RC III \$450

- Precise and hassle free micro adjustment
- Release lever for quick and easy adjustment
- New windage micro-scale and optimized elevation bar
- Serrated release lever for smooth, easy adjustments
- Light weight and durable
- Made in Japan

SIGHT

Wiawis WS700

\$400

- Wheel tuners for convenient and smooth vertical adjustment
- Bolt system secure the sight in place
- 8/32 threads
- Aiming aperture and soft case included
- Graphene exclusive technology in the carbon bar absorbs more vibration
- It also keeps weight to a minimum

WinWin WS600

\$300

- Lightweight, Reliable, Durable
- Wheel tuners for convenient and smooth vertical adjustment
- Bolt system secure the sight in place
- 8/32 threads
- Aiming aperture and soft case included

Avalon Tec Carbon

\$100

- Lightweight and affordable
- Quick release aiming aperture for easy housekeeping
- Fast vertical adjustment
- 8/32 threads
- Aiming aperture and soft case included

K Sight

\$40

- Lightweight aluminium
- Wheel tuners for convenient vertical adjustment
- Bolt system secure the sight in place
- 8/32 threads
- Aiming aperture included

COMPOUND SIGHT

Decut Compound \$120

- Affordable for beginners
- Detachable scope mount
- Ambidextrous design
- Scope not included

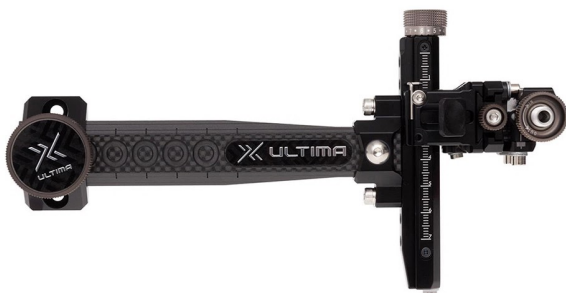

WNS SPC-300 \$200

- Durable construction for the price
- Carbon extension bar for weight minimisation and torque reduction
- Scope not included

Shibuya CPX III \$550

- Rock solid precision target sight
- Lightweight, extra rigid carbon extension and precision dovetail mount, locking down the sight securely.
- Micro-adjustment elevation & windage - .002" of travel per click at 20 clicks per revolution

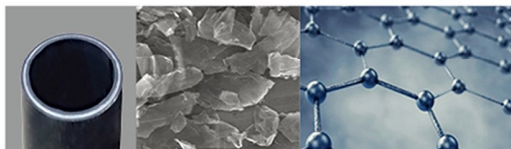

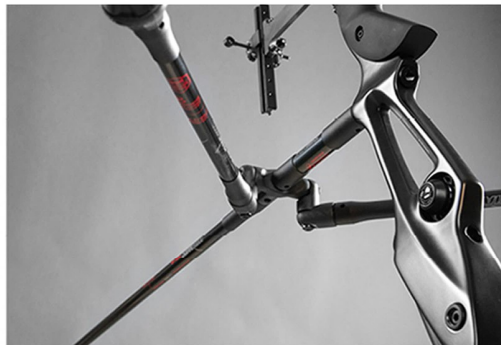

Shibuya CP Pro \$880

- Materials and shape combine in polygonal carbon extension bar to offer incredible vibration damping results. Rock solid connections for exceptional reliability
- Increased range of windage adjustment over other Shibuya models.
- Mounting system maximises contact with the extension bar for a more secure hold

STABILIZER SET

When using the WIAWIS ACS EL stabilizers on a bow, the riser movement becomes better balanced and more stable.

ACS EL 2021

\$685

- Revolutionary high-tech graphene carbon core structure greatly improves stiffness and stability, effectively minimizing bow torque, shock absorption and vibration for maximum performance
- Wiawis unique carbon pattern tapered structure effectively increase stiffness and rigidity for better shock and vibration absorption
- Half the weight of it's predecessor for greater control
- V-Bar Not Included

TECHNICAL SPECIFICATIONS

LONG ROD LENGTH	26 inches (165g)	28 inches (168g)
	30 inches (171g)	32 inches (176g)
SHORT ROD LENGTH	10 inches (74g)	11 inches (77g)
	12 inches (80g)	14 inches (84g)
	15 inches (86g)	
EXTENDER LENGTH	3 inches (55g)	4 inches (60g)
	5 inches (65g)	6 inches (70g)

ACS15

\$680

- Graphene foam core to increase the rigidity for ultimate shock and vibration absorption
- Tapered tube at the end of the stabilizer to increase stiffness
- Thin diameter of only 15mm
- V-bar Not Included

S21

\$650

- Advanced nano carbon
- Ultimate shock and vibration absorption with graphene foam core
- Tapered on each end of the stabilizer to increase stiffness
- S21 V-bar included

HMC Plus

\$460

- High modulus carbon stabilizer
- Trusted design with light weight and high durability
- CX2 V-bar included

STABILIZER SET

K2 V2

\$550

- Small diameter of only 0.5625" to eliminate wind drag
- VIBRO-CORE Internal Damping – remove unwanted vibration from your shot
- Made in the USA | designed and hand-built
- Vbar not included

Vektor

\$840

- The most advanced combination of stiffness, wind efficiency, and internal damping
- Tapered small diameter allows more stiffness at the base of stabilizer and creates greater wind efficiency at the tip
- Made in the USA | designed and hand-built
- Vbar not included

Breeze

\$260

- Reinforced carbon structure
- Lightweight best for beginner
- Thin diameter of only 12mm
- 3 Akusta Dampers Included

Tyro

\$100

- Cost-effective
- Ultra lightweight recommended for young beginner archers

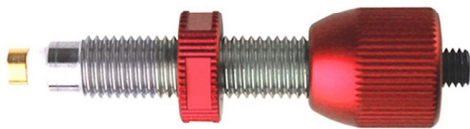

PLUNGER

Beiter

\$150

- Made in Germany
- Best plunger in the market with smoothest spring tension to ensure the cleanest arrow clearance
- Only available in thread size 5/16-24. Length 17.5-23mm.
- Micro-clicking cushion adjustment

Shibuya

\$45

- Affordable and reliable
- Smooth plunger spring movement
- Available in 5/16-24 threads only
- Made in Japan

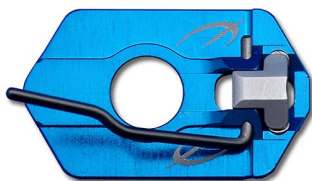

Sanlida X9

\$30

- Affordable
- Smooth plunger spring movement
- Made in China

ARROW REST

Shibuya

\$55

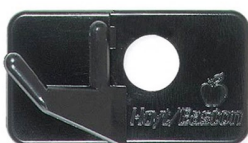

- Most popular arrow rest in the market
- Carbon coated offset support arm
- Dual adjust system - horizontal/vertical
- Dual magnets for consistent positioning
- Reversible for right or left hand
- Made in Japan

Sanlida X10

\$30

- Magnetic arrow rest
- Dual adjust system - horizontal/vertical
- Reversible for right or left hand

Hoyt Arrow Rest

\$5

- Self adhesive tape backing
- Durable/Flexible

CLICKER

ARC Carbon \$42

- Reinforced arched shape carbon blade allow easy arrow nocking without the need of lifting the clicker
- Stiffer and more consistent
- 6-32 thread fit most recurve handles

Color Clicker \$35

- Precisely machined stainless steel clicker
- Ergonomically designed to allow for easy tightening or re-adjusting
- 6-32 thread fit most recurve handles

Beiter Clicker \$18/\$20

- The most popular clicker on the market
- German engineered and manufactured
- Bendable stainless steel clicker
- Easy tightening or re-adjusting
- 6-32 thread fit most recurve handles

Extended Clicker \$60

- Designed to be mounted on sight bar to increase arrow length
- Non-slip design features a one-piece mounting bracket for ease of adjustment
- Recommended for growing young archers

BOW STRING

ANGEL

String Serving

Majesty 777

\$32

- 100% High Modulus Polyethylene
- Thermally bonded resin improves weather resistance
- Slightly lighter than ASB Majesty to increase arrow speed
- Customizable and hand-made by our skilled bow string makers at Salt & Light Archery

Majesty ASB

\$30

- Most popular bow string used by top archers throughout the world
- 100% High Modulus Polyethylene
- Thermally bonded resin improves weather resistance
- Customizable and hand-made by our skilled bow string makers at Salt & Light Archery

Classic Fast Flight \$20

- Ready-made
- Lightweight for increased arrow speed
- Good for beginner metal bow and intermediate archers
- Available in 66/16, 68/16, 70/16

Tyro Darcron

\$10

- Ready-made
- For wooden bows
- Available in 54/14, 66/16, 68/16, 70/16

BOW STAND

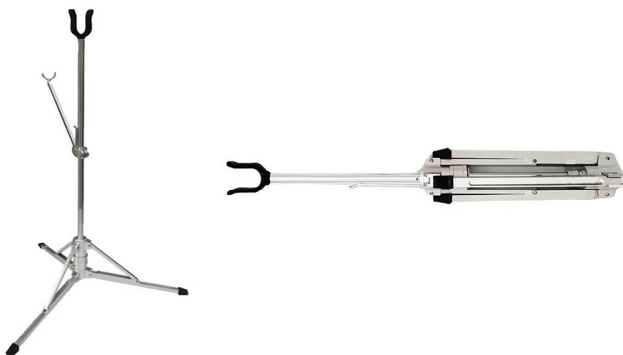

Magnetic Bow Stand \$20

- Aluminium with magnetic legs
- Lightweight yet durable
- Adjustable string support for all weather conditions

Eola Bow Stand \$30

- Solid stainless steel construct
- Able to withstand heavy bow set up
- Foldable with a butterfly nut locking system.

Automatic Bow Stand \$145

- Light weight aluminium construct
- Automatic fold-out legs that deploy with a simple twisting motion
- Tall body for easy access to bow
- Adjustable holder mouth to fit different grip size

DAMPERS

WIAWIS ACS-ST \$120

- All-carbon core suppresses vibration and bow torque quickly at release along with a help of Multi Damper attached
- Length 125mm | Weight 125g

FIVICS Riser Damper \$50

- Perfect for adding weight while dampening bow shock and vibration
- Weigh only 80g

WIAWIS Multi Damper \$45

- Special material and strength reduces vibration as well as secondary vibration quickly after shooting.
- Lightweight with adapters included

DOINKER A Bomb \$42

- Most popular damper designed to remove residual vibration and noise
- Available in 3/4" and 1" size

WIN BW Damper \$30/\$20

- Made from absorbant rubber material
- Eliminates vibration after the shot
- Available in 40mm and 20mm

AKUSTA Damper \$18

- Made from absorbant rubber material
- Eliminates vibration after the shot
- Available in 40mm and 25mm

Avalon Damper \$10

- Reduces noise and felt vibration during the shot
- Weight only 1.0 oz

ARROWS

60-70-80g

TOP

\$85

- High strength carbon fiber
- Straightness Tolerance: ± 0.006 "
- Affordable perfect for beginners
- Preassembled with points, rubber vanes and G-nocks

80-90-100g

Golden Eagle **CLOSEOUT** \$150

- High strength carbon fiber
- Straightness Tolerance: ± 0.0015 "
- Economical, perfect entry arrow
- Points included

60-70-80g

Radius

\$120

- 24-TON Carbon with 4.2mm diameter
- Straightness Tolerance: ± 0.005 "
- Economical, perfect entry arrow
- Points, rubber vanes, pins and nocks included

80-90-100g

Brixxon

\$120

- 24-TON Carbon with 4.2mm diameter
- Straightness Tolerance: ± 0.0015 "
- Economical, perfect entry arrow
- Points and pins included

100-110-120g

Paragon

\$250

- 40-TON Carbon with 3.2mm diameter
- Straightness Tolerance: ± 0.0015 "
- Bulge points and pins included

100-110-120g

Preminens

\$335

- 40-TON Carbon with 3.2mm diameter
- Straightness Tolerance: ± 0.001 "
- Bulge points and pins included

All arrows are sold in a dozen with each components sold separately

ARROWS

80-90-100g \$30

\$16

Carbon One Shaft \$180

- High-strength carbon fibers
- Straightness: $\pm .003$ "
- Weight tolerance: ± 1 grain
- Parallel design

100-110-120g \$45

\$16

ACG Shaft **CLOSEOUT** \$300

- Lightweight carbon fiber bonded to a precision 7075 alloy core
- Straightness $\pm .002$ "
- Weight tolerance: ± 1.0 grains
- Parallel design

100g-110-120g \$45

\$16

ACE Shaft \$435

- High-strength carbon fiber bonded to a precision 7075 alloy core
- Straightness: $\pm .0015$ "
- Weight tolerance: ± 0.5 grains
- Barreled design

100-110-120g \$45

Easton Tungsten 120g \$340

Decut Tungsten 120g \$168

\$16

X10 Shaft \$560

- High-strength carbon fiber bonded to a precision 7075 alloy core
- Straightness: $\pm .0015$ "
- Weight tolerance: ± 0.5 grains
- Used to win every Olympic and World Championship title since 1996
- Barreled design

100-110-120g \$45

Easton Tungsten 120g \$340

Decut Tungsten 120g \$168

\$16

X10 Protour Shaft \$560

- High-modulus carbon fiber bonded to a precision 7075 alloy core
- Straightness $\pm .0015$ "
- Weight tolerance: ± 0.5 grains
- Used by Pro world compounders
- Tapered design

All arrows are sold in a dozen with each components sold separately

NOCKS

Beiter

Outsert Nocks \$20

- Precision-molded polycarbonate
- Lightweight and durable
- High precision and low tolerances
- Asymmetrical design does not pinch the nocking point
- Used at the Olympic Games by many world renowned archers
- 12 nocks for \$20, 20 nocks for \$30

E EASTON

G Nocks \$10

- Precision-molded polycarbonate
- Lightweight and durable
- Sold in packet of 12

Pin Nocks \$20

- Precision-molded polycarbonate
- Lightweight and durable
- Sold in packet of 12
- Available in size S and L for both compound and recurve archers

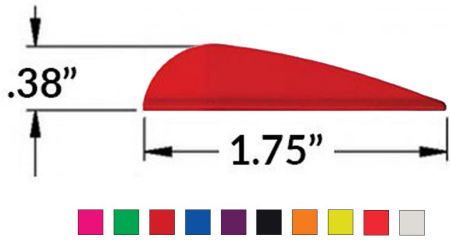

F FIVICS
ARCHERY

Pin Nocks \$16

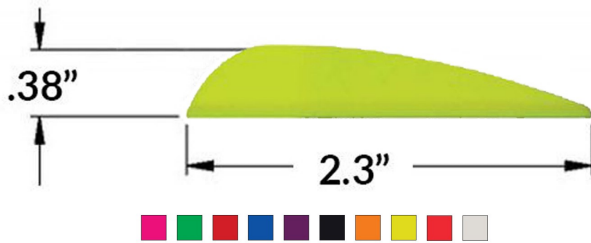

- Made of quality polycarbonate
- Lightweight and durable
- Sold in packet of 12
- Available in size S and L for both compound and recurve archers

VANES

Elite Plastifletch 16 \$10

- Tough and durable
- Bright and visible colors
- Weigh, 3.2 gr
- Sold in packs of 50

Elite Plastifletch 23 \$10

- Tough and durable
- Bright and visible colors
- Weigh, 4.9 gr
- Sold in packs of 50

RANGEOMATIC

Spin Vanes \$18

- Most popular vanes in the market
- Lightweight, designed to be forgiving and improve accuracy
 - Curved pocket traps and compresses air to rotate arrow twice as fast
 - Recommended length, 1-3/4"
 - Sold in packs of 50

Fluorescent

Metallic

XSWings Vanes \$26/29

- Unrivalled accuracy and durability
- Used by renowned archers around the world
- Available in Fluorescent and Metallic colors
- Recommended length, 40mm
- Low profile; low speed lose and great wind stability
- Sold in Packs of 50

FINGER TAB

Chung-Tae Kim \$150

- High performance design
- Developed in association with top coach and Olympic gold medallist Kim Chung-Tae

EZ-R \$100

- Ergonomic design for best comfort and shot sensation
- Pinky hook can be micro-adjusted and is also detachable
- High-quality Cordovan leather

Cordovan 360 \$60

- Quality cordovan leather
- Thin body structure for better control
- Perfect for archers with short fingers

SF-100 \$24

- Light weight all aluminium plate body
- Superior cow-hide leather
- Perfect for childrens' small hand size
- SF-200 Cordovan \$30

Classic \$24

- Affordable aluminium frame ideal for beginners
- Prime leather with felt backing

Tec One \$25

- Affordable aluminium frame ideal for beginners
- Prime leather with felt backing

CHEST GUARD

WinWin Finno \$36

- Fully adjustable ergonomic design for best comfort and perfect fit
- Soft open weave nylon for aeration
- Elastic strap with secured stainless steel clip

Avalon Tec One \$18

- Black outer mesh panel with a soft foam padding for comfort
- Adjustable elastic strap for perfect fit
- Quick buckle fastening

ARM GUARD

Avalon Flexible \$10

- Lightweight, wind tunnel cooling design with adjustable elastic straps
- Smoother outer surface reduces friction when impacted by string

Sanlida X8 \$10

- Flexible lightweight rubber armguard with adjustable elastic straps

Beiter \$16

- High strength polycarbonate
- Ventilated for warm weather use
- Two adjustable elastic straps and fasteners included

Beiter Soft \$18

- Flexible quality polycarbonate
- Three adjustable elastic bands and 3 fasteners included
- Soft material for ergonomic fit

QUIVER

A2 Target

\$15

- Two tube quiver with plastic separators
- Small, light weight and compact, perfect for junior and beginner archers.
- Clip included for hooking on pants or pocket

Tec One Target

\$55

- Molded rubber arrow separator to reduce arrows rattling
- 2 - D-ring loops to hook accessories
- Slot for T-square and pens
- 4 accessory pockets for accessories and maintenance tools
- Adjustable quiver belt included

Tec X Field

\$60

- Molded rubber arrow separator to reduce arrows rattling
- 2 - D-ring loops to hook accessories
- Slot for T-square and pens
- 3 accessory pockets for accessories and maintenance tools
- Field style quiver
- Adjustable quiver belt included

Tec X Target

\$65

- Molded rubber arrow separator that prevents arrow wearing
- 2 - D-ring loops to hook accessories
- Slot for T-square and pens
- 3 larger accessory pockets for accessories and maintenance tools
- Adjustable quiver belt included

QUIVER

Tec X Pouch

\$20

- Securely holds your finger tab or release in a convenient spot
- Draw string opening
- Easily hangs from any quiver belts

Deluxe Field

\$120

- High-denier woven fabric construction
- Fleece lined interior and removable arrow dividers
- Integrated T-square slot and 2 D-ring loops for accessories
- Adjustable quiver belt included

Deluxe Pouch

\$30

- Securely holds your finger tab or release in a convenient spot
- Easily hangs from any quiver belts
- Draw string opening

ATQ or ABQ

\$310/\$290

- Premium luxurious top of the line quiver as used by Olympians
- Fully customizable to your desired color combination and name
- Premium leather construct
- Made in Japan
- Adjustable quiver belt included

BOW BAGS

TYRO

\$70

- Internal riser and limb sleeve
- Arrow tube included
- Multiple inner pockets for tools and accessories
- Small and compact, perfect for young archers
- 27.5" x 11.8" x 5"

CLASSIC

\$90

- Smart clean design
- Individual storage for stabilizers, arrows, limbs and other accessories
- 2 layers with multiple inner pockets for tools and accessories
- Quick top access to riser and limb case
- Includes riser & limb sleeves and arrow tube
- 27.5" x 13" x 5.5"

Tentron M

\$160

- Strong sturdy design and packed full of features.
- 3 layers with multiple inner pockets for tools and accessories
- Includes arrow tube, and riser/limb case as standard.
- 11.8" x 7.8" x 26.7"
- Weight: 2.4kg

MISCELLANEOUS

Ball Stretch Band \$12

- Ergonomic design for best grip
- Used as an exercise tool to increase strength and flexibility
- Enhance posture and shooting technique with proper use

Grasper Puller \$8

- Ergonomically designed rubber grip to make arrow pulling easier
- Works on all arrow diameter
- Elastic cord for attaching to quiver or belt

Square Puller \$10

- Puck style square shaped arrow puller with two different channel sizes to fit different sized shafts
- Elastic cord for attaching to quiver or belt

Archery Umbrella \$30

- Large size golf umbrella
- Target face design to be the centre of attraction

Spotting Scope \$120

- Straight Viewing
- 20-60X Zoom eye piece with 60mm objective lens
- Lightweight and compact design for easy transportation
- 1/4"-20 tripod mounting shoe
- Height adjustable tripod stand sold separately @ \$60

SLA MERCHANDISE

SLA Baseball Cap \$25

- One size fits most
- Six-panel construction
- Pre-curved brim
- Adjustable back strap closure
- 100% polyester
- Underbill: 100% cotton

SLA Bucket Hat \$20

- 100% polyester
- Lightweight classic bucket shape
- Perfect for outdoor competition use
- Available in S and M sizes

SLA Dri-FIT Jersey \$20

- 100% polyester
- Lightweight and airy
- Available in sizes from 4XS to 2XL
- Available in Grey, Blue and Red

SLA Track Pants \$30

- 100% polyester
- Lightweight and airy
- Slim Fit
- Available in sizes from XS to 2XL
- Shorts \$25

SLA MERCHANDISE

SLA Target Hoodie

- Unleash your inner archer everywhere you go
- Available in size XS to 2XL

\$38

String Tube

\$1.50

- Plastic tube to protect your bow string safe from wear and tear
- String sold separately

Lanyard

\$3

- Nylon fabrication with our logo and slogan

Stretch Band

\$3

- High elasticity and strength
- Used to enhance shooting posture and technique through proper practice

Shoe Guard

\$10

- Allows you to rest the limb tip on your shoes without damaging them
- Snaps onto shoe laces to secure

TARGET FACES

Avalon WA 10 Rings

- Reinforced paper for longer target life
- 10 Rings indoor and outdoor targets
- Available in 3 sizes;
122cm - 1pc for \$6, 100pc for \$540
80cm - 1pc for \$2.80, 100pc for \$240
40cm - 1pc for \$1.50, 100pc for \$100

Avalon 80cm 6 Rings

- Reinforced paper for longer target life
- 6 Rings indoor and outdoor targets
- 80cm - 1pc for \$2, 100pc for \$160

Avalon 40cm 3-Spot

- Reinforced paper for longer target life
- Indoor 40cm triple 5 rings vertical face
- 40cm - 1pc for \$1.50, 100pc for \$100

Decut WA 10 Rings

- Reinforced waterproof polyester target
- Weather resistance for longer target life
- 10 Rings indoor and outdoor targets
- Available in 3 sizes;
122cm - 1pc for \$12
80cm - 1pc for \$6.50
40cm - 1pc for \$3

TARGET BOARD

9 Cube Target Board

- 9-cube rotatable archery target with inner connecting foam strips
- Suitable for both compound and recurve shooting up to 50lbs and 60lbs depending on thickness
- Available in 2 thickness:
 - 129cm x 129cm x 30cm @ \$720
 - 129cm x 129cm x 20cm @ \$550
 - 30cm replacement cube @ \$95 each
- Target stand and face sold separately

Home Target Board \$140

- Suitable for children archery or recurve bows below 25 lbs.
- Come with a pair of foam stand
- 90cm x 90cm x 10cm
- Target face sold separately

Target Board Stand \$200

- Made of light weight cedar wood
- Able to withstand most target board dimensions and weight
- 190cm X 110cm X 110cm

Wooden Bow Bundle

- Wooden Riser
- Wooden Limbs
- Hoyt Plastic Rest
